Marco Bacis

Senior Software Engineer | Distributed Systems, Cloud & Systems Programming

Bergamo, Italy • marc.bacis@gmail.com • marcobacis.dev • marcobacis • marcobacis

Summary

Senior Software Engineer with 7+ years of experience building backend, cloud, distributed, and performance-sensitive software across web, embedded, and industrial systems, primarily with C#/.NET and C/C++.

Seeking a remote role focused on distributed systems, cloud infrastructure, or systems programming.

Experience

Full-Stack Software Engineer, Zupit – Trento, Italy (remote) Dec 2023 – present

- Acting as Deputy Tech Lead, contributing to architecture decisions for .NET/Angular projects.
- Designed backend services and integrations between multiple systems and external APIs, focusing on maintainability and performance.
- Coordinated releases and deployments across a distributed engineering team.

Software Engineer, e-Novia S.p.A. – Milan, Italy Sept 2019 – Nov 2023

- Built and integrated web and IoT platforms connecting cloud backends with embedded and industrial hardware (C++, .NET).
- Developed performance-sensitive desktop applications for industrial control systems (Qt, WPF, C++).
- Worked across distributed teams and consultancy projects spanning multiple stacks, from cloud to embedded.

Software Engineering Intern, Maxeler Technologies – London, UK Mar 2017 – Sept 2017

- Accelerated CNN algorithms on custom FPGA hardware within the Machine Learning team, using a Java-based DSL.

Education

Politecnico di Milano, MSc in Computer Science and Engineering – Milan, Italy

- Grade: 110/110 cum laude
- Thesis: "BlastFunction: an FPGA-as-a-Service system for Accelerated Serverless Computing"

Politecnico di Milano, BSc in Computer Science and Engineering – Milan, Italy

Skills

Languages: C#, C/C++, TypeScript, Python, Rust

Systems & Infrastructure: Linux, Docker, Kubernetes, distributed systems, networking

Backend & Cloud: .NET, ASP.NET Core, Azure, SQL, REST APIs

Frontend: Angular, RxJS, HTML, CSS

Tools & Practices: Git, GitHub Actions, CI/CD, Agile/Scrum, Extreme Programming

Languages

Italian: Native

English: Advanced (C1)

French: Basic (A2)
